All dimensions in mm
tolerance of +/-5mm

*Dimensions are subject to change, customers are advised to measure actual product before commencing installation.

**Fixing point dimensions are for guidance only/the positions of wall fixing must be checked when product is received.

Materials

Basin: Isocast

Has many names including:

- Gelcoat
- Cultured marble
- Cast mineral marble
- Synthetic marble

All Roper Rhodes basins are produced in Swedish owned Polish factory who were one of the first to market with this material the 1970s. Base material is 70% natural (aggregate dolomite rock - calcareous magnesium carbonate). A misconception is that this material is completely manmade. The other 30% is a mixture of various polyester resins. 1.5 - 2.0mm Top coating of "gelcoat" which is the proprietary name for the polyester resin used to seal all top faces of the basin / worktop. This can be glossy or matt. Tolerance of +3/-0mm. Ceramic is more typically +5/-5mm. Fully tested against multiple stains which can either be removed with standard cleaners (autosol for example) or the specialist clean and shine repair kits.

Product is tested and approved by the following associations:

- CE, IAPMO R&T (USA), Building research institute.

FAQs
