### FAQs

- Q:** How do I turn the lights on and off?
- A:** Simply press/swipe palm of the hand against the area the sensor has been installed.
- Note:** Make sure the blue sensor light faces towards the side panel and not inside the furniture.
- Q:** What is the protection rating for this product?
- A:** IP44.
- Q:** Which IEE regulation zones are this product suitable in?
- A:** This product is suitable for Zone 2 and outside zones. This product is **NOT** suitable for installation in Zone 0 or Zone 1.
- Q:** Can this product be connected to a plug & socket?
- A:** No, **DO NOT** connect this product to a plug & socket.
- Q:** Does this product have an earth wire?
- A:** This product is manufactured to a CLASS II category and therefore doesn't require an earth connection.
- Q:** Where does the wiring go within the furniture unit?
- A:** See images above for suggested electricians routing. Make sure all of the cables are routed to avoid the drawer mechanisms and secured with the cable clips provided.
- Note:** No cables should touch any metal parts within the furniture.
- Q:** Can I position the sensor on either side of the furniture?
- A:** Yes, ensure the blue sensor light faces towards the side panel and not inside the furniture. Place 20mm from the top of the side panel.
